

Long Tom River Maintenance Survey Responses

- Additional results from same stakeholder survey presented earlier this evening.
- Out of the 21 survey respondents, 10 owned property next to the Long Tom River and answered this series of questions.
- Riverside landowners on sections likely for near-term maintenance actions prioritized for personal interviews.
- Technical Team will be convened for providing maintenance recommendations.
- Reminder that the stakeholder survey is available until December 13th for your participation on-line at: www.longtom.org

Question 10. What views do you have of how the Corps conducts Long Tom River maintenance, and ideas for what could be done differently?

- More maintenance and bank clean-up. Not supportive of chemical use.
- Corps not active in my stretch of River (2x).
- Concerned about bank erosion.
- Less Corps bureaucracy before taking action.
- Corps is considerate and does a good job (2x)
- No opinion – not sure what actions they have taken.
- Corps needs more money to take more actions.
