

2010 Annual Report

Action through Understanding

Program Accomplishment Highlights

Watershed Restoration

We support private and public land managers in a range of restoration activities that improve fish passage, water quality, and habitat. We work on farms and woodlands as well as developed and natural areas. Projects are prioritized based on watershed data and the Council's Conservation Strategy.

- Completed 7 restoration projects of all types on private and public land
- Initiated 5 new restoration projects and performed ongoing work on 7 others

Sub-watershed Enhancement

We resolve known impairments to water quality and habitat by hosting learning and problem-solving sessions with landowners in each creek basin. As people determine the solutions that work best for them, we assist with funding, project implementation, and ongoing stewardship.

- Coyote Creek sub-watershed outreach

Monitoring & Assessment

Monitoring and surveying help identify issues and potential projects and will also track the Council's progress over time.

- Fish Passage Barrier Assessment (2008-10)
- Project effectiveness and monitoring (ongoing)

Community Involvement

The Council is a diverse and inclusive group representing all perspectives in the basin. We hold regular discussions on watershed health and aim to turn understanding into action. People say their involvement with the Council helps build community among neighbors and do the right thing.

- Bear, Ferguson, & Coyote Creek were accepted into the Model Watershed Program!

Who we are

Formed in 1997, the Long Tom Watershed Council is a 501(c)3 non-profit citizens' group comprised of people from all perspectives, and guided by a diverse Steering Committee. The Council has a successful track record of addressing local land and water issues in a proactive and positive manner.

Where we work

Amazon Creek
Bear Creek
Coyote Creek
Elk, Noti, Poodle Creeks
Fern Ridge Tributaries
Ferguson Creek
Lower Amazon Creek
Lower Long Tom River
Spencer Creek
Upper Long Tom River

Vice-Chair
Rich Reeves

Fast Facts

- 90% of all spending supports program activities.
- Individual donations help the Council leverage approximately \$150,000 per year in state watershed enhancement funds, and help the Council compete for many other grants.
- Over 89% of the Council's grant funds are spent in Lane County.
- Every hour of staff time leverages an hour of volunteer time.

Funding & Partners
